The six solar power plants were connected to the grid in March 2016 under the Renewable Obligations Certificate (ROC) program.

"We are very pleased to announce that our portfolio of operating solar power plants in the UK has now reached over 100MWp," commented Dr. Shawn Qu, Chairman and Chief Executive Officer of Canadian Solar, "We remain committed to leveraging our industry-leading position and expertise in solar project development to meet the growing demand of clean solar energy in the UK and around the world."
