SGS Invitation to Attend Free Webinar on Non-Intrusive Inspection of Large and Under Support Areas

SGS is delighted to invite you to attend one of its free 60-minute webinars given by the SGS Competence Center for Non-Destructive Testing. The webinar, titled **How to Inspect Areas Under Support and Large Areas in Non-Intrusive Inspection** will be hosted by Ahmed Masood, Assistant Manager NDT, and will be available across the globe in four sessions on October 18 and 19 to meet the needs of attendees in every time zone.

Non-Destructive Testing (NDT), also called Non-Destructive Examination (NDE) and Non-Destructive Inspection (NDI), is the most effective and applied testing method of examining the integrity of an object, material or a system without reducing its longevity or causing damage to it. As Non-Destructive Testing does not alter the object being inspected, NDT is a highly-valuable technique that can save both money and time during the quality and safety evaluation, whether it is in fabrication, pipe manufacturing, plant construction, chemicals, petrochemical plants, shipyards, the offshore industry or in conventional and nuclear power plants.

In the light of growing interest in **Non-Destructive Testing** techniques, SGS Industrial Services is pleased to invite you to a free 60-minute webinar on Non-Intrusive Inspection of large and under support areas.

With the webinar **How to Inspect Areas Under Support and Large Areas in Non-Intrusive Inspection** on October 18 and 19, **SGS** will inform participants how to sufficiently inspect areas under support and large areas for corrosion. Attendees of the webinar will learn about material degradation in assets and the difference between conventional inspection techniques and large/under support area screening. In addition, SGS will provide information on the inspection approach of SGS for large/under support area screening as well as introduction, code requirement and inspection approach for Non-Intrusive Inspection on the basis of interesting case studies.

Hosted by Ahmed Masood, Assistant Manager NDT, the free 60-minute webinar will be available across the globe in Asia, Europe, the Americas and Africa and will be available in four sessions to meet the needs of attendees in every time zone.

Four webinar sessions are scheduled, twice on each of two days:

Tuesday, October 19, 2011:

10:00 a.m. Europe Summer Time (Amsterdam, GMT+02:00)

12:00 p.m. Arabian Time (Abu Dhabi, Muscat, GMT+04:00)

4:00 p.m. Singapore Time (Singapore, GMT+08:00)

4:00 p.m. Europe Summer Time (Amsterdam, GMT+02:00)

11:00 a.m. S. America Eastern Time (Buenos Aires, GMT-03:00)

9:00 a.m. Central Daylight Time (Chicago, GMT-05:00)

Wednesday, October 19, 2011:

10:00 a.m. Europe Summer Time (Amsterdam, GMT+02:00)

12:00 p.m. Arabian Time (Abu Dhabi, Muscat, GMT+04:00)

4:00 p.m. Singapore Time (Singapore, GMT+08:00)

4:00 p.m. Europe Summer Time (Amsterdam, GMT+02:00)

11:00 a.m. S. America Eastern Time (Buenos Aires, GMT-03:00)

9:00 a.m. Central Daylight Time (Chicago, GMT-05:00)
