## SGS to Sponsor 6th Annual Mexican Energy & Infrastructure Finance Forum in Mexico City

This year, the 6th Annual Mexican Energy & Infrastructure Finance Forum 2010, of which SGS is a silver sponsor, is taking place on June 29, 2010 at the Four Seasons, Mexico City. The meeting provides a good opportunity to discuss financing Mexico's economic development as well as new project and finance structures for infrastructure development. Adrian Shaw, Head of SGS Project Finance Services, will present an interesting case study about a 25 km highway project crossing Mexico City for which SGS Mexico provided site supervision services on behalf of the Mexican State Government.

The Mexican Energy & Infrastructure Finance Forum takes place in Mexico City on June 29, 2010 for the sixth time. This international meeting in Mexico focuses on the examination of current initiatives being developed to meet Mexico's massive energy and infrastructure needs as well as on Mexico's biggest investment projects.

This one-day event, taking place at the Four Seasons, will gather senior government officials, international project financiers, rating agencies, constructors, lawyers, strategic advisors and key market players in the industrial sector. The meeting aims to discuss financing Mexico's economic development as well as new project and finance structures for infrastructure development.

Among the topics to be discussed at the forum are encouraging private sector investment, reassuring project sponsors and meeting opportunities in Mexico's infrastructure sector. Moreover, attendees will have a unique chance to learn about recent market developments, revival of capital markets, lender perceptions of the Mexican market and development of power and renewables.

The 6th Annual Mexican Energy & Infrastructure Finance Forum offers a unique occasion for SGS, which is a silver sponsor of the event, to present its wide portfolio of [Project Finance Services](#) and meet potential business partners.

At 11:45 am, Adrian Shaw, the Head of SGS Project Finance Services, is presenting the case study about the Viaducto Bicentenario, a 25 km highway project crossing Mexico City. For this important project [SGS Mexico](#) provided site supervision services on behalf of the Mexican State Government. The presentation of this case study will focus on the background of this project and Mexico state's roads program as well as the importance of Fonadin financing and the challenges and opportunities of state-level financing.
